

March 5th, 2021

Dear Valued Customer,

This letter is to provide notification that raw materials used in the manufacture of adhesives, continue to see significant price movements. As a result, Henkel Corporation's Packaging business is implementing price increases in accordance with the following, effective April 15<sup>th</sup>, or as contracts allow:

- Hot melt adhesives by up to 10%
- Liquid adhesives by up to 12%
- Coatings and Polyurethane adhesives up to 10%

Affected brands include AQUENCE, TECHNOMELT, CORRUGATING, LAMINATING, TUBEWINDING, EXTRUSION, LOCTITE, TYCEL, PRINLIN, and TOBACOLL.

Henkel works diligently to negotiate favorable and stable prices from our raw material suppliers. However, market conditions have made it impossible to maintain current pricing levels.

Your Henkel Sales Representative will be in contact with you, to answer any specific questions you may have.

We remain grateful for your business, and your continued support.
